

Train to Lead – We Motivate, We Commission

UCLA ARMY ROTC

MISSION: To recruit, educate, develop, and inspire Senior ROTC Cadets in order to commission officers of characters for the Total Army. Fosters an integrity based environment that promotes academic excellence, physical fitness and teambuilding.

What is Military Science/Army ROTC? ROTC is designed to attract, motivate, and prepare students with high potential to serve as commissioned officers in the United States Army. Army ROTC is one of the best leadership courses in the country. It is offered at more than 1300 colleges and universities nationwide. During your time in college, Army ROTC will complement your education with instruction in leadership development, goal setting, military science, strategy and problem solving. Army ROTC will provide you an opportunity to develop these skills outside the classroom with practical, hands-on exercises and leadership training events. When you graduate and complete all of the training and academic requirements of the program, you will be commissioned as a second lieutenant - an officer to serve in the Army Active Duty, Army National Guard, or Army Reserve.

Why go Army ROTC? In a word: breadth. The ROTC program is for students who want more than just a typical college experience. The Army offers an extremely broad range of missions, geographical dispersion, career skills and leadership opportunities. The Army offers careers on land, sea, in space and cyberspace. Medicine, dentistry, veterinary services, law and the chaplaincy are also available options for anyone who are looking to broaden their horizons. Do you want to serve your country as an officer? The training each Cadet receives through the ROTC program is extremely beneficial in preparing for future Army or civilian careers. Whether you plan to pursue a civilian career or serve as an Army officer fulltime, these skills are assets to your future.

Military Science is an open enrollment, elective course! There are no prerequisites or commitments for registering for the Lower Division of the Military Science class and Lab. Enrollment in Military Science DOES NOT constitute a military obligation until you enter the Upper Division. You are not joining the Army; you are registering for a class.

What class to register for: You must register for the class and lab at the same time.

Train to Lead – We Motivate, We Commission

Incoming Freshman at UCLA: Fall Term - MS 11 – Foundation of Officership; Mil Sci Z – Lab
Winter Term – MS 12 – Basic Military Leadership
Spring Term – MS 13 – Leadership Development

Exceptional Opportunities.

Nursing – As a Commission Officer in the Army Nurse Corps through ROTC means you have undergone valuable hands-on experience while developing your management and teamwork skills- skills highly prized by the world's finest hospitals. Learn more at www.goarmy.com/rotc.

Science and Engineering - Get experience in most science and engineering majors that you would have to wait years for, such as the chance to work with the Signal Corps, the Chemical Corps or the Corps of Engineers. Learn more at www.goarmy.com/rotc.

Simultaneous Membership Program (SMP) - This program is for those who wish to join the Army National Guard or the Army Reserve while enrolled in Army ROTC. In most cases, these branches require a two-year commitment. Learn more at www.goarmy.com/reserve/benefits.

Green to Gold - If you're currently on active duty or a prior service, you may already have fulfilled basic requirements for the Army ROTC program. You may enroll and complete ROTC in just two years. Learn more at www.goarmy.com/rotc/enlisted-soldiers/html.

Cultural Understanding and Language Proficiency (CULP) – Immersion program that gives you the opportunity to travel to other countries to learn factors that form the basis of culture: values, beliefs, behaviors, and norms.

SCHOLARSHIP OPPORTUNITIES

Do you have a distinguished academic record? Have you participated in after-school activities or even worked a part-time job? Are you physically active? These credentials may qualify you for a merit-based, up to tuition & fees or room and board Army ROTC scholarship. These scholarships include the cost of classes, books, fees, or living allowance of up to \$10,000 per year. You also earn certain amounts of stipend depending on your level in the Army ROTC curriculum (Freshman/MS1 - \$300, Sophomore/MS2 - \$350, Junior/MS3 - \$450 and Senior/MS4 - \$500).

Note: Non-Scholarship contracted Cadets are also eligible for stipend.
